- All agreements and communications between Tai He and any third-parties (including Lianyungang Jinyang Chemical Co. and Lianyungang Guosheng Chemical Co., Ltd.) regarding the manufacture and supply of any reagents or intermediaries related to Tai He's manufacture of Azoxystrobin Technical sold to Willowood;
- Any test results relating to the quality of the Azoxystrobin Technical sold by Tai He to Willowood, including any analysis of any intermediaries or catalyst used in the manufacture of that product; and
- All documents and communications relating to the application for, and approval of, Tai He's establishment registration with the United States Environmental Protection Agency.

If possible, it would be very much appreciated if Tai He could produce these documents in advance of your deposition scheduled for August 9, 2016 in Hong Kong. Willowood will, of course, reimburse Tai He for any expenses incurred by it in producing these documents. Please send these documents to my attention at the address above or by electronic mail to my address at stiller@wtplaw.com.

Thank you very much for your assistance in this regard. If you have any questions or comments, please do not hesitate to contact me.

Very truly yours,
